

131. A material as recited in claim 123 further comprising an additive selected from the group consisting of tack enhancers, detackifiers, bleed reducers, antioxidants, melt viscosity modifiers, flame retardants, shrinkage reducers and strength enhancers.

133. A material as recited in claim 123 wherein said plasticizing agent provides a chemical softening of said A-B-A triblock copolymer in order to result in a soft gelatinous material that has a durometer of less than 15 Shore A.

134. A material as recited in claim 123 further comprising a second triblock copolymer;

wherein said second triblock copolymer has a molecular weight that is different from the molecular weight of said first triblock copolymer.

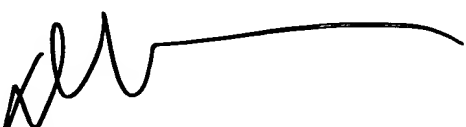

135. A material as recited in claim 123 further comprising an A-B diblock copolymer.

---

**Remarks**

Applicant has canceled the non-elected claims in response to the restriction requirement. Applicant has added new claims within Group II for prosecution.

Respectfully submitted this 26<sup>th</sup> day of December, 1997.
